Evaluation Report

The MATH-Game-Design Conference in Berkovitsa, Bulgaria

15th to 16th of May 2018, Bulgaria

This document shall give an overview of the data collected by using the Weather Reports at the MATH-Game-Design Conference, hosted by NYV Bulgaria in Berkovitsa.

All participants have filled in the questionnaire, handed out at the end of the meeting to evaluate the workshops content, the workshops design, the coordination and the results of the workshops. There is no incomplete set of quantitative data, but some of the participants have skipped the open-ended question, which was concerned with recommendations for improvements of the MATH project and its consortium.

The second project conference in Berkovitsa went well and none of the partners has anything of urgent matter to declare at this stage of the project. Besides that, the partners were very satisfied about the hosting in Bulgaria.

Even so each partner has a clear picture of the individual tasks ahead and of the projects' next steps.
