

Status and Outlook from viewpoint BK Bocholt-West

Andree Wendinger
17th of November 2020

Table of Content

-2-

- IO1: Research
- IO2: Curriculum
- IO3: Online Course
- IO4: Teacher Handbook
- IO5: Showcases
- IO6: Policy Paper
- Critical Success Factors

IO1 Research

-3-

- Open activity:
 - Sending out invitations for online questionnaire
 - Approx. 80 invitations sent
 - Sending another 80 invitations in preparation

IO2: Curriculum development

-4-

- Work in progress
- Current status / results documented in Format of „.docx“-Table and „.pptx“
- Current status to be presented and discussed during this conference

IO3: Online Course

-5-

- Work in progress
- Current status / results documented in Format of Moodle course „EDU-VET Material Development 02“
- Current status to be presented and discussed during this conference

IO4 Teacher Handbook

-6-

- Work initially started
- IO2 and IO3 are keyinputs required to move this forward
- First Concept to structure this IO are documented along with describing the structure of the curriculum and online course in „.pptx“: Basics: EDU-VET Curriculum and Learning Module
- Current status to be presented and discussed during this conference

IO5: Showcases

-7-

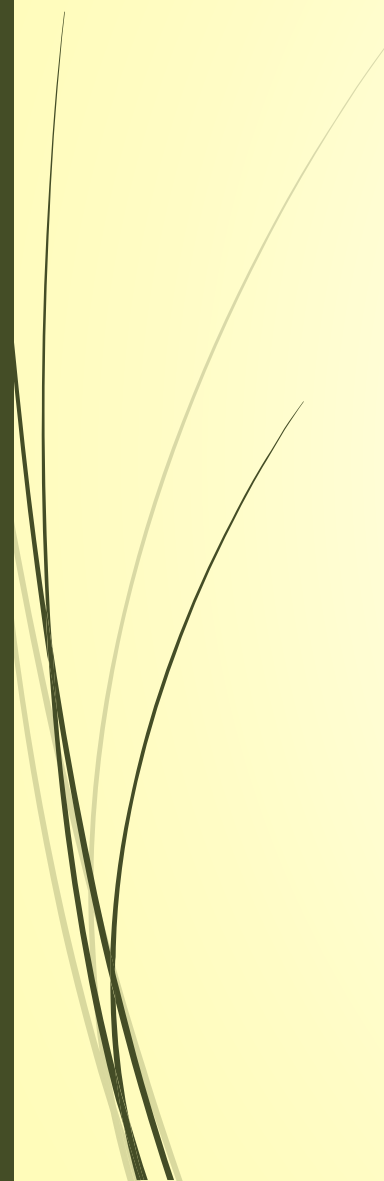

- First ideas how to get this started and first examples were prepared in preparation of EDU-VET project
- Results in IO2 and IO3 need to be sufficiently mature in order to start contacting representatives from enterprises with regard to further showcase development activities

IO6 Policy Paper

-8-

- First ideas collected and communicated to support Marc

Critical Success Factors

-9-

- Good handling of the enormous complexity
- Concurrent engineering methods adequately applied (because of interdependencies between Ios)
- Good communication
