## IO5: Online Observatory

**EDU-VET – Research and Development Conference**  
**Online Project Meeting 17th to 19th of November 2020**  
**Project Number: 2019-1-DE02-KA202-006068**

# Current status of IO5

-3-

## **IO5: Online Observatory**

Leading organisation: CIFP

Duration: 01/01/2020 to 30/09/2021

*Creation of criteria setting for Online Observatory: Done ✓*

*Provide guidelines to partner: Done ✓*

*Translation of Business Profile in own language: Done ✓*

*Technical implementation and development of technical infrastructure of Online Observatory: In progress (IK, until middle of December 2020)*

*Searching for best-practices (metal companies) which can be presented on Online Observatory: In progress (all partners, until May 2021)*

- Each partner should acquire about 5 to 6 companies
- Companies should fill in the guideline and answer the questions
- The completed profiles of companies should be sent back UPB
- Translation of company profiles in English

# Main issues about the searching

-4-

## **IO5: Online Observatory**

Leading organisation: CIFP

Duration: 01/01/2020 to 30/09/2021

*Business profile must be filled out during a face-to-face interview (if possible) with some representative belonging to the best-practice company (2 pages at most, 250 words approx. per page)*

*2 pictures that illustrate the main activities of this best-practice company*

*1 video that makes a presentation of this best-practice company (2 options):*

- Using a video provided by the company
- Record a new one on-site

*Getting an official acceptance (email) where this best-practice company allows us to publish its data within the EDU-VET Online Observatory*

Inform this best-practice company there will be a forum on the EDU-VET Online Observatory to exchange impressions among users and them; therefore it would be desirable they accept it and ask the questions posted on it.

# IO5 deadlines

-5-

## **IO5: Online Observatory**

Leading organisation: CIFP

Duration: 01/01/2020 to 30/09/2021

# Presentation of Best-Practices

## - Example of a business profile from Germany

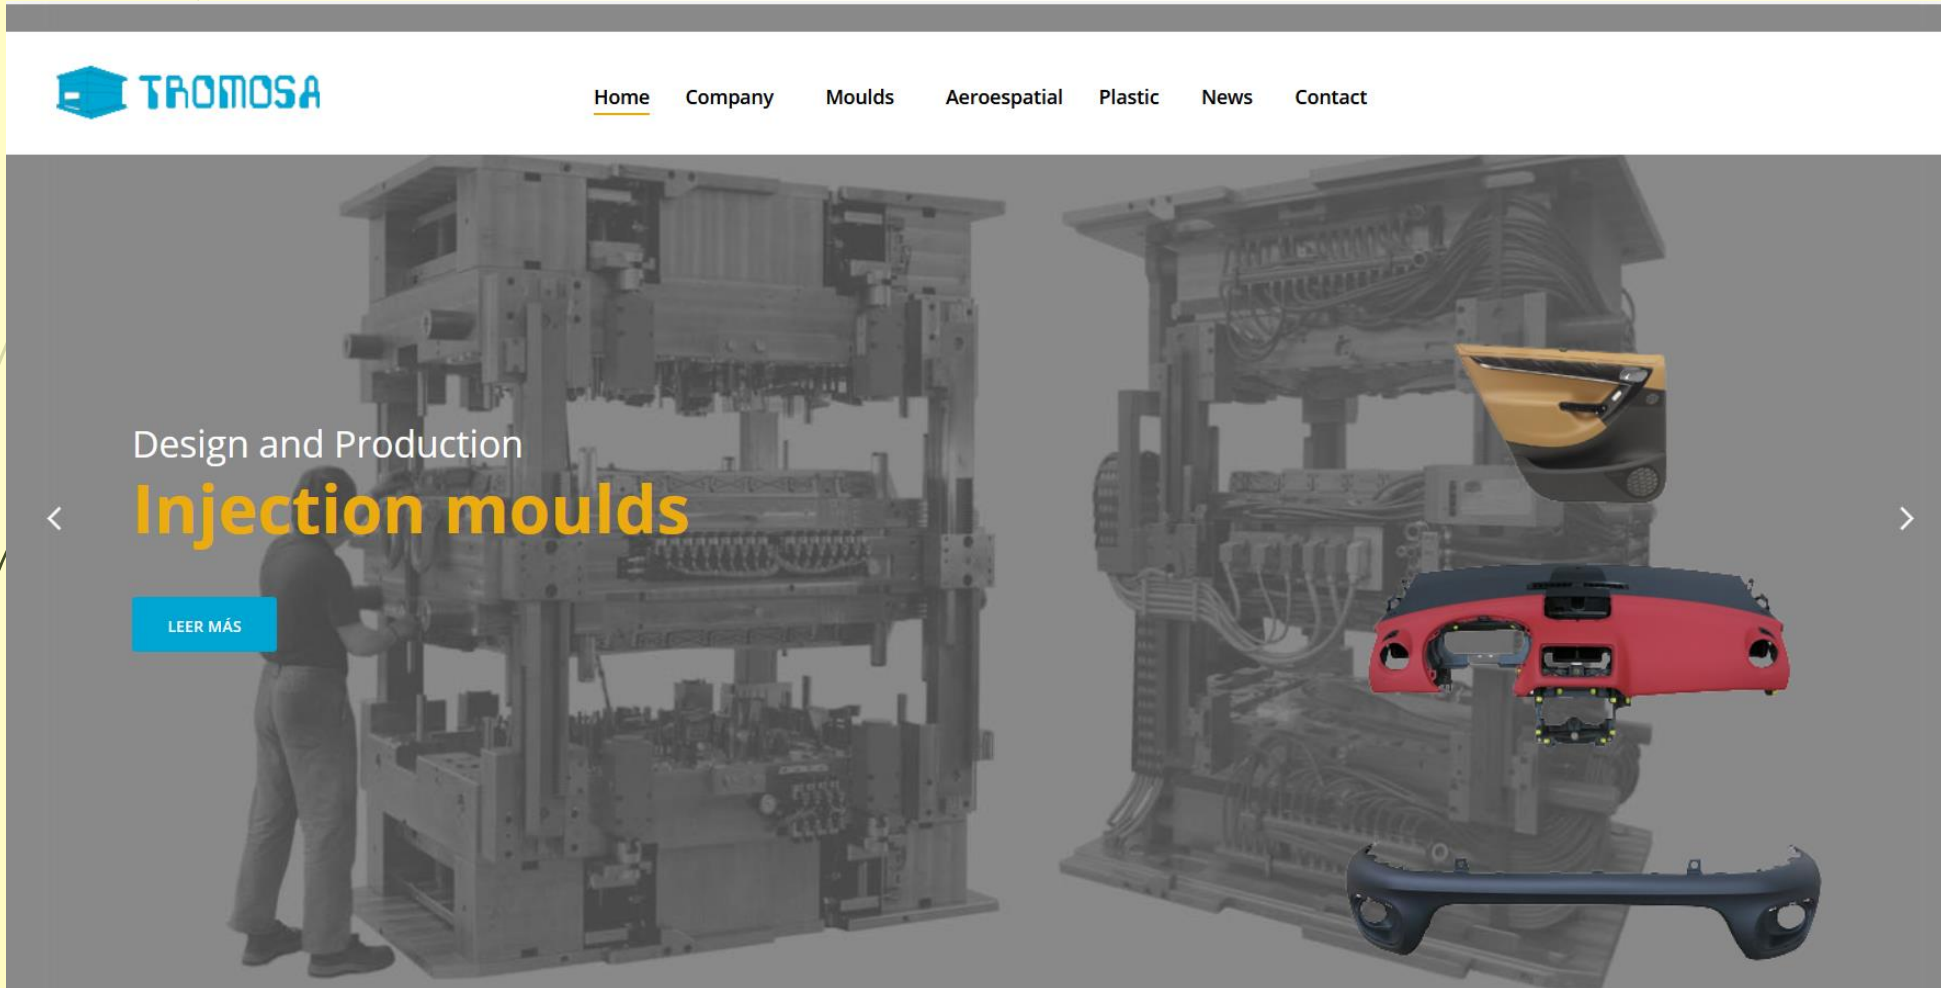

Business Profile	
1. Name of the business	H-T-W Metall- und Fassadenbau GmbH
2. Years in business	1971
3. Category of business	Services in the metal sector
4. Description of business and digitisation	<p>Metal and steel construction includes a variety of structural and aesthetic solutions. The combination with other materials results in structural craftsmanship that can be used both indoors and outdoors. We advise planners, builders and architects in Paderborn and the surrounding area in the planning and implementation of aesthetic yet functional solutions. Our custom-made metal products meet the requirements of the industry as well as fire protection tasks. Whether in the private, public or industrial sector, we produce individual metal solutions that contribute to creating a piece of quality of life. According to your specifications, we create a wide variety of metal products made to measure for the home, garden and industry: carports, canopies, steel staircases, steel structures, balcony and stair railings, terrace roofs, porch balconies, garden furniture and bikeports.</p> <p>Whether for house owners, industry or property management companies: Our many years of experience and comprehensive professional competence enable us to carry out the entire range of services from steel construction to locksmith work.</p> <p>Whether fences or garage doors, balconies, awnings or railings, doors or window grilles: we have the experience and expertise to ensure professional installations. Even solutions made of steel or metal in combination with other materials pose no problem for us. We are happy to provide you with our full service on site to help you turn your vision into reality. There are virtually no limits to the possibilities: With us, you will receive the complete services for your steel construction project in or near Paderborn. We are there for you from consultation, planning, production and construction to assembly. Our professional staff will carry out all work reliably and on schedule.</p>
5. Size of your business	25 employees
6. Supports to set up your business and digitization	-

7. Pitfalls and challenges	-
8. Opportunities and plans for the future	-

# Presentation of Best-Practices

-7-

- Example of a best-practice company from Spain

The screenshot shows the Tromosa website with a navigation menu: Home, Company, Moulds, Aeroespacial, Plastic, News, Contact. The main content area features a large image of industrial injection moulding machinery. A person is visible on the left side of the machinery. Overlaid on the machinery are three car parts: a yellow door, a red front bumper, and a black front bumper. The text "Design and Production" is above "Injection moulds" in large yellow font. A blue button with the text "LEER MÁS" is positioned below the text. Navigation arrows are visible on the left and right sides of the main image area.
