Creating online Learning Environments in Technical Education for
European metal industry

Short evaluation - Feedback
EDU-VET-Meeting 2:
Research and Development Conference
Online via Zoom
17th to 19th of November 2020

Project Title: E-Learning, Digitisation and Units for Learning at
VET schools – Creating online Learning
Environments in Technical Education for European metal industry

Acronym: EDU-VET

Reference number: 2019-1-DE02-KA202-006068

The meeting evaluation of the 2nd EDU-VET project meeting shall give an overview of the feedback about the online partner meeting, hosted by UPB –University Paderborn via Zoom (online).

This questionnaire will be handed out as an online survey during the meeting and will be answered by one person per institution to evaluate the meetings content, the meetings design, the coordination and the results of the meeting.

The second project meeting, although held online via Zoom, went well and none of the partners has anything of urgent matter to declare at this stage of the project. The project team suggest to conduct several short Meet Ups between the transnational meetings. Because of this, the project team decided to have the next Meet Up on 15/12/2020 online via Zoom.

Moreover, all participants want to do more dissemination activities, e.g. posts on social media channels and website, online articles, posters and flyers. Additionally, the project participants thank for the good cooperation so far and are looking forward to further project work.

Even so, each partner has a clear picture of the meeting objectives and considered the meeting as helpful.
