E-Learning, Digitisation and Units for Learning at VET schools –  
Creating online Learning Environments in Technical Education for  
European metal industry

**Short evaluation - Feedback**  
**EDU-VET-Meeting 3:**  
**Curriculum and Online Course Meeting**  
**Online via Zoom**  
16<sup>th</sup> to 18<sup>th</sup> of March 2021

**Project Title:** E-Learning, Digitisation and Units for Learning at  
VET schools – Creating online Learning  
Environments in Technical Education for European metal industry

**Acronym:** EDU-VET

**Reference number:** 2019-1-DE02-KA202-006068

The meeting evaluation of the 3<sup>rd</sup> EDU-VET project meeting shall give an overview of the feedback about the online partner meeting, hosted by CIFP, Spain via Zoom (online).

This questionnaire will be handed out as an online survey during the meeting and will be answered by one person per institution to evaluate the meetings content, the meetings design, the coordination and the results of the meeting.

The 3<sup>rd</sup> project meeting, although held online via Zoom, went well and none of the partners has anything of urgent matter to declare at this stage of the project. The project team suggest to conduct several short Meet Ups or online meeting in working groups between the transnational meetings. Because of this, the project team decided to have the next Meet Up in working groups in April/ May 2021 online via Zoom.

Moreover, all participants want to do more dissemination activities, e.g. posts on social media channels and website, online articles, internal communication platform (portal), posters and flyers. Additionally, the project participants thank for the good cooperation so far and are looking forward to further project work.

Nevertheless, the answers show that the Corona pandemic poses challenges in project work. All project meetings, contacts with companies, trainers, etc. are handled online, which makes communication very difficult. Anyway, we are on track with all project activities.

Even so, each partner has a clear picture of the meeting objectives and considered the meeting as helpful.

Please find below the summarised evaluation data:

Question 2:

Do you have any concerns regarding the development process in EDU-VET so far?
<p>X Yes, please be specific (n=1):</p> <p>-Extremely limited/low time resources to support the EDU-VET project because of extreme extra effort resulting from operating our learning and administrative school services in an Pandemic environment with real and high risks for health and life of students, colleagues and external partners. Many people are currently not completely up to speed with matching the new requirements resulting from a digitized school services delivery process which is evolving from at least from week to week generating nes requirement new impacts which need to be analyzed, understood and solved. I cannot foresee how much contributions I will be able to deliver over the coming weeks ...</p> <p>x No (n=6)</p>
Do you have any concerns with the quality of the management or collaboration of the project so far?
<p>x Yes, please be specific (n=2):</p> <p>-I haven't seen the management addressing the fast current/recent changes in the school life of the participating team member. And, I haven't seen any signs at all, that the management is aware of the fast changing environment of the projet execution, and is willing to incorporate this new environments dynamics into the further project management activities. From my perspective the time has come to develop and discuss an exit strategy that may be followed in the case that the needed resources to complete the project cannot be obtained.</p> <p>-I hope UPB can confirm that SBEOG has grown better into the project over the last few months, and that UPB is confident SBEOG will live up to its tasks and responsibilities.</p> <p>x No (n=5)</p>

Question 3:

What would you like to suggest for the future cooperation / communication in the EDU-VET project? (n=4)
<p>-Skype Meetings in working groups</p> <p>-Hopefully, we can meet face-to-face after Corona.</p> <p>-Create a common understand about the dynamic development in project's environment, build a common understanding of the relative importance of the goals "living a healthy and successful life in an dynamicly evolving pandemic environment" versus "completing a project no matter what it takes" even though it is a wonderful project, which I love so much.</p>

-I hope an actual meeting will be possible later this year. It's would be so good for motivation and would be nice to meet everyone in person.

Question 4:

Please describe any Dissemination & Exploitation activities or measures you undertook so far related to the EDU-VET project.

(n=4)

- Flyer, newsletter -Online article -Facebook, Twitter, Website -Scientific articles
- Poster, website, social media, publication of articles, intergration in lectures
- In addition to what I already documented: - I talk about the project whenever it feels to be appropriate - I combined sending the newsletter with sending the invitations to participate in our online survey in another approx. 50 invitation mails
- We posted a news item on our internal communication platform (portal) about the project, stating the project description, goal and participants.

Question 5:

What else would you like to pass on? Are there any other issues for discussion?

(n=3)

- Thanks to all for the good cooperation
- Clear next steps agreed, competent presentations occurred
- Just the one I mentioned already: How does the Covid-19 Pandemic impact the school live of the project team members? - And, how do these impacts affect the ability of the team members to contribute to the project?
