Creating online Learning Environments in Technical Education for
European metal industry

IO3: EDU-VET Moodle Learning platform- Instructions for H5P

Marc Beutner / Jana Stelzer, University Paderborn

Project Title: E-Learning, Digitisation and Units for Learning at
VET schools – Creating online Learning
Environments in Technical Education for European metal industry

Acronym: EDU-VET

Reference number: 2019-1-DE02-KA202-006068

This guideline shows you how you can create interactive H5P tasks on our EDU-VET Learning platform.

1) Firstly, please register on our EDU-VET Learning platform (<http://edu-vet.eduproject.eu/>) with your login data.

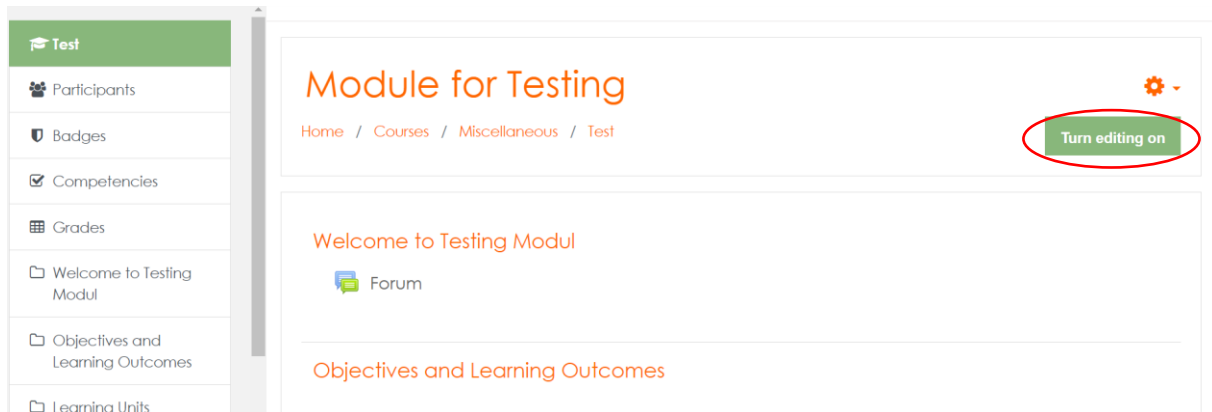

The screenshot shows the login interface of the EDU-VET Moodle Learning platform. At the top, there is a green header bar with the email address 'info@edu-vet.eduproject.eu' on the left and 'You are not logged in.' on the right. The main content area features the EDU-VET logo at the top center. Below the logo, there is a login form with two input fields: 'Username' and 'Password'. The 'Username' field is circled in red. To the right of the 'Username' field, there is a link that says 'Forgotten your username or password?'. Below the 'Password' field, there is a checkbox labeled 'Remember username' which is checked. To the right of the password field, there is a message: 'Cookies must be enabled in your browser' with a green checkmark icon. Below this message, it says 'Some courses may allow guest access'. At the bottom of the form, there are two buttons: a green 'Log in' button and a white 'Log in as a guest' button.

2) Afterwards, please choose a Learning Module. To practise the development of H5P tasks, firstly select the Module for Testing.

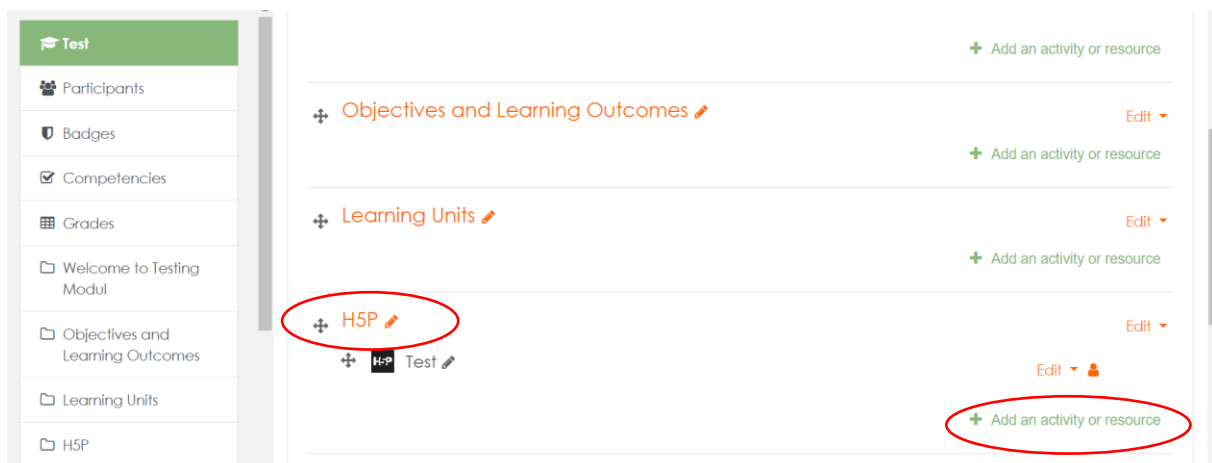

The screenshot shows the home page of the EDU-VET Moodle Learning platform. On the left, there is a green sidebar menu with the following items: Home, Dashboard, Calendar, Private files, Content bank, and Site administration. The main content area is titled 'Available courses' and lists three courses. The first course is 'Module for Testing', which is circled in red. Its description is 'this module can be used for testing and practice in order to learn how to use Moodle and its functions.' The second course is 'Entry Drilling', with the description 'Learning Module 1 focuses on the basics of the topic "Drilling".' The third course is 'Entry Turning'. Each course entry includes a small image representing the course content.

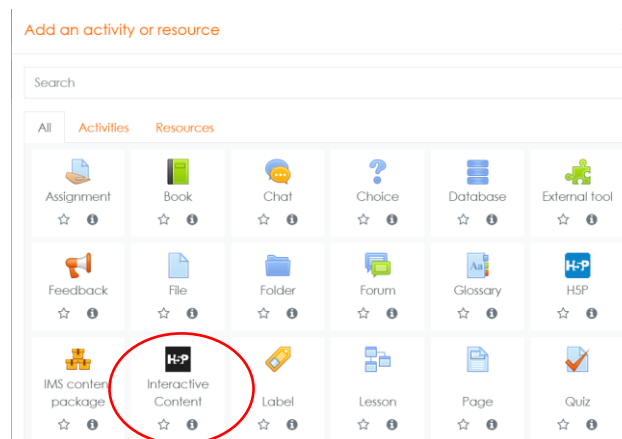

3) Please click “Turn editing on”!

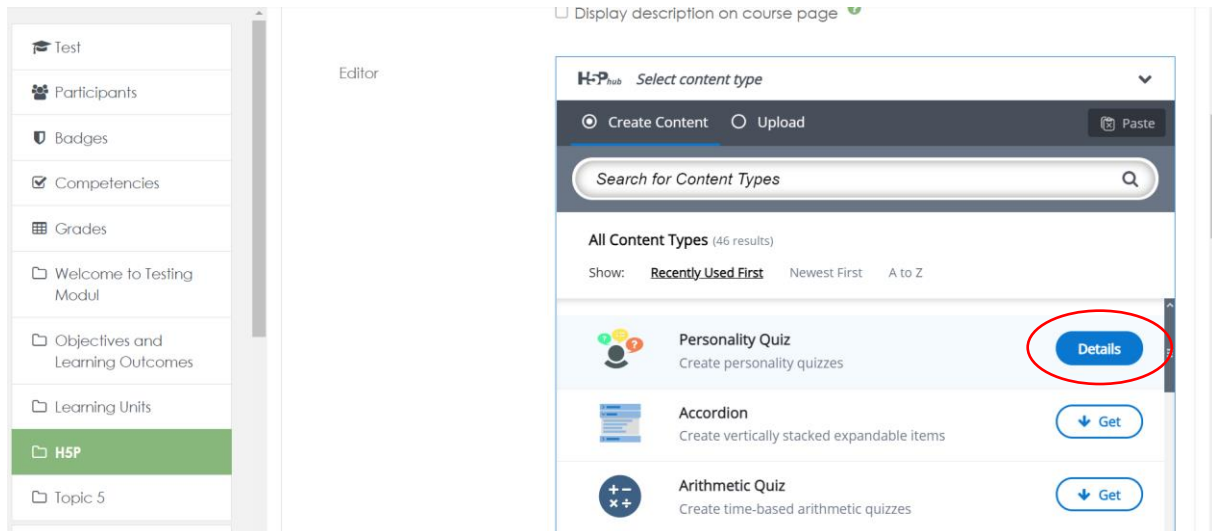

4) After clicking “Turn editing on”, the pen and also the function “Add an activity or resource” in green appears. This shows that you are in editing mode. For creating H5P tasks it is necessary to be in editing mode. Please select a tab under which you would like to create the H5P task and click “Add an activity or resource”.

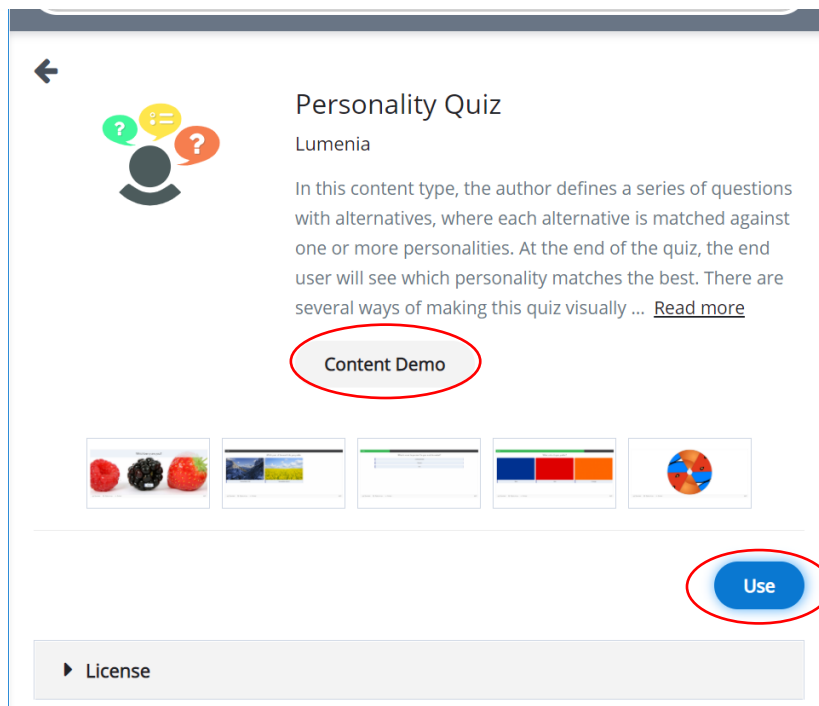

5) Please choose “H5P Interactive Content”!

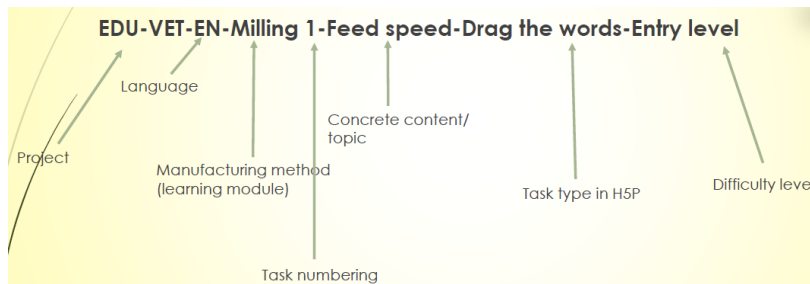

6) Afterwards, you see following screen. It looks like h5p.org we have already work with. Now you can see all available H5P task types. If some task types are not yet installed, just click “Get” and within a few seconds you can use these task types, too. Otherwise click “Details” for creating a task type.

7) Then you will receive some general information and explanation about the task type. Either you can watch a Content Demo first, for that you have to click on “Content Demo”. Or you can start the task creation by clicking “Use”.

8) Start with the task creation by filling in the fields. Please think about the correct description of the title, e. g.:

Example

Copy

Paste & Replace

The screenshot shows the 'Personality Quiz' task creation form. The 'Title' field is marked as required with an asterisk and is highlighted with a red circle. Below the title field, there is a checkbox labeled 'Display Title' which is checked. The text below the checkbox reads: 'Whether or not to show the title as a headline at the start of the personality quiz.'

9) Finally, save the tasks by clicking “Save and return to course” or “Save and display”. If you click “Save and display”, you can see a preview of the H5P task. Otherwise you will return to the Learning Module.

The screenshot shows the bottom of the task settings page. There are four buttons: 'Save and return to course', 'Save and display', and 'Cancel'. The 'Save and return to course' and 'Save and display' buttons are circled in red.

10) If you notice that you have made a mistake or would like to change something, click “Edit” and “Edit settings”. Then the task will be displayed again and you can change the contents.

The screenshot displays the Moodle course editor interface. It shows three main sections: "Learning Units", "H5P", and "Topic 5". The "H5P" section contains a "Test" activity. A context menu is open over the "Test" activity, listing various actions: "Edit settings" (highlighted with a red circle), "Move right", "Hide", "Duplicate", "Assign roles", and "Delete". The "Edit" button for the "Test" activity is also highlighted with a red circle. The "Edit settings" option is highlighted with a red circle. The "Add an activity or resource" button is visible in the "Learning Units" section, and the "Add topics" button is visible in the "Topic 5" section.
