EDU-VET-Meeting 4:
EDU-VET Implementation, Handbook and Showcase Meeting
Meeting Minutes
31st of August to 2rd of September 2021

Project Title: E-Learning, Digitisation and Units for Learning at VET schools – Creating online Learning Environments in Technical Education for European metal industry

Acronym: EDU-VET

Reference number: **2019-1-DE02-KA202-006068**

The meeting evaluation of the 4th EDU-VET project meeting shall give an overview of the feedback about the online partner meeting, hosted by Graafshap College (SBEOG), NL via Zoom (online).

This questionnaire will be handed out as an online survey during the meeting and will be answered by one person per institution to evaluate the meetings content, the meetings design, the coordination and the results of the meeting.

The 4th project meeting, although held online via Zoom, went well and none of the partners has anything of urgent matter to declare at this stage of the project. The project team suggest to conduct several short Meet Ups or online meeting in working groups between the transnational meetings. Because of this, the project team decided to have the next Meet Up in working groups in September/ October 2021 online via Zoom.

Moreover, all participants want to do more dissemination activities, e.g. posts on social media channels and website, online articles, internal communication platform (portal), posters and flyers. Additionally, the project participants thank for the good cooperation so far and are looking forward to further project work.

Nevertheless, the answers show that the Corona pandemic poses challenges in project work. All project meetings, contacts with companies, trainers, etc. are handled online, which makes communication very difficult. Anyway, we are on track with all project activities.

Even so, each partner has a clear picture of the meeting objectives and considered the meeting as helpful.

Please find below the summarised evaluation data:
